LIL ORSINI - CURRICULUM VITAE

PERSONAL LETTER

Lil has 23 years of experience in QA whereof 7 years in QC within production and distribution of pharmaceuticals, food supplements and medical devices as Quality Coordinator/Assistant/Responsible and furthermore ECA Certified QA Manager.

From Lils role in QA, she has gained an extensive understanding of the relations between daily operations and quality management, which has given her a pragmatic approach to solve tasks. By auditing, preparation and approval of SOPs her work, has been performed in accordance with applicable legal requirements and guidelines. Therefore, it is natural for her to read, assess and implement requirements.

To organize and maintain quality tasks is an exciting challenge for Lil. As Lil finds it natural to think of improvements and optimization, she has participated in several quality improvement projects.

Presentation, education and training, has been a natural conclusion of tasks and has been carried out at all levels of the organization. Lil thrives in an environment with a high level of quality mindset and dynamics.

As a person she is structured, proactive and involved. It is important to Lil to be authentic and obliging. Flexibility and service are a fundamental part of her personality. Analytically she is quick and sharp. And then she is cheerful and has a positive attitude and thereby contributing with good energy to the group.

Lil takes interest in peoples wellbeing and has therefore for several years performed voluntary social work, as a mentor for young people with challenges. In this connection, Lil has completed courses in; Crisis-Psychology, The difficult conversation and From Victim to Human being. Beside that Lil is a board member in a newly established homeowner association of 192 apartments.

ACHIEVEMENTS

- ❖ Optimized an existing inadequate quality system in a year to comply in parallel with the management of operational tasks. Subsequent audit from the head office gave the lowest number of observations at European level among Commercial Units.
- ❖ Added additional value to the traditional conformity audit by also looking at goals, strategies and opportunities for improvement in interaction with existing systems.
- ❖ Developed a system for deviation management for the purpose of documentation recording, monitoring and trending.
- ❖ Made extensive changes to the batch documentation for optimizing workflows and building quality into the processes.
